

Microboards Blu-ray Media

Microboards Technology offers its own line of economical spindled Blu-ray media, the most cost-effective Blu-ray discs available!

Trust the world leader in recordable media solutions for recording and archiving your data, videos, and more.

Microboards' Blu-ray media comes in 25-disc spindles and records at 4X. Featuring white inkjet-printable, silver lacquer thermal-printable, white Prism thermal, and white Everest thermal surfaces, Microboards Blu-ray media is compatible with all disc printers and disc publishers *except* the Pioneer BD-R101 recorder.
