Double Layer

If you are looking for a way to archive your home videos, consider Verbatim Double Layer or Dual Layer DVDs. DVD DL discs allow you to store up to 8.5GBs of data or video, nearly doubling the capacity of a standard DVD disc.

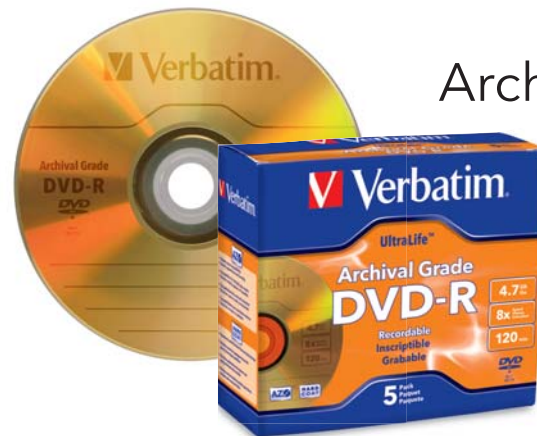

CDs & DVDs

Verbatim CDs & DVDs are the ideal storage solution for recording and sharing your favorite photos, music, video and more. For something a little different consider our unique Digital Vinyl and DigitalMovie design.

Blu-ray

Blu-ray Disc is the next-generation optical disc format that was developed to enable recording and playback of high-definition video (HD), as well as storing large amounts of data. A single-layer Blu-ray Disc can hold 25GB, which can be used to record over 2 hours of HDTV.

Archival Grade

Look to Verbatim UltraLife™ Gold Archival Grade DVD-R media to preserve your family photos and home movies as well as critical corporate data. Each disc is manufactured using proprietary unique dual reflective layers to maximize both compatibility and longevity.

LightScribe

LightScribe Direct Disc Labeling is a new technology that offers consumers and businesses a simple, no-hassle way to burn professional, silkscreen-quality labels on their CD/DVDs. Using the same laser that burns data in their disc drives, customers burn their data as always, flip the disc over, reinsert it into the drive and burn a precise and permanent iridescent label.

DATA BURN-FLIP-BURN LABEL

Printable

Customize your CDs and DVDs using Verbatim printable media! Verbatim manufactures an extensive range of printable inkjet, thermal and silk-screening media. Qflix

Qflix allows movies and other video content to be downloaded and legally burned using recordable CSS technology. Verbatim Qflix media are compatible with all Qflix enabled burning hardware, and once recorded can be played back in the vast majority of DVD player devices. Verbatim's Qflix DVD-R media utilizes our renowned Azo recording dye. High performance, professional grade, always reliable.

PhotoSave DVD

Verbatim's PhotoSave DVD allows you to quickly backup and archive up to 2,000* photos stored on your PC or digital camera. This recordable DVD searches and stores over 80 different types of photo and video files, protecting your valuable photo memories from hard drive crashes.

CD/DVD Cases

Protect your data, music, movies and more during transport or in storage with a Verbatim storage case.

Photo Paper

Capture life's special moments on Verbatim Premium Photo Paper. From summer vacations to family milestones, each print is created with life-like crispness and definition. Our universally compatible, "Super White" paper makes colors more vibrant, and the glossy finish maintains a commercially processed look and feel.

Card Readers

When it comes to transferring your digital photos, make it fast with one of Verbatim's CameraMate card readers. Simply plug and play with Windows® and MAC® operating systems and begin transferring your photos instantly. No matter what card format your digital camera, cell phone or digital device requires Verbatim has a card reader to support your needs.

-------	--

Store 'n' Go® USB Drives

Conveniently store and transport your data on the easy-to-use Verbatim Store 'n' Go USB Drive. Store everything from presentations to photos, video clips and music, all readily accessible on any computer! To protect your sensitive file utilize the built in password security feature. Verbatim's Store 'n' Go USB drive is enhanced for Windows ReadyBoost, allowing you to speed up your system's performance on Vista equipped PC's.

Store 'n' Go® Micro USB Drives

Verbatim's Store 'n' Go Micro USB drive features new System in Package (SIP) technology, which integrates all the electronic components into one of the smallest and most reliable USB drives available. Resistant to everyday handling, dust, moisture, and static discharges, Store 'n' Go Micro is small enough and tough enough to take with you everywhere. Includes cell phone lanyard for easy attachment to cell phone or your keyring.

Store 'n' Go for Mac OS X

Created specifically for Mac OS X users, Verbatim's Store 'n' Go for Mac OS X, allows you to protect sensitive data in a password controlled Privacy Zone, yet allows easy sharing of non sensitive data from the Public Zone*. The user defined Privacy zone is adjustable to meet your changing needs.

*Public zone data can also be accessed by any Windows 2000, XP, or Vista equipped PC when using FAT format option

Store 'n' Go® Corporate Secure

Corporate Secure and Corporate Secure FIPS Edition USB Drives... are offered in two series designed to meet the information security needs of corporate enterprise or federal government users. Offered in capacities from 1GB to 8GB, Verbatim Corporate Secure USB drives require no driver or software installation, and are compatible with a wide range of network level security applications and are capable of being centrally managed by network IT. Both devices offer fast data transfer with up to 160X Read (24MB/sec) and up to 133X Write (20MB/sec).
