- ⊙ Genuine 16x DVD recording speed on selected models
- ⊙ Sturdy and compact design
- ⊙ 220 disc capacity
- ⊙ Networked option
- ⊙ Compatible with inkjet and thermal printers*

Produce Discs Quickly

The **CopyDisc Platinum Series** delivers easy to use, fully automated CD and DVD duplication solutions.

These standalone copiers combine a small footprint with a reliable metal framework construction, which means that whilst they are built to perform 24/7, they will also fit comfortably within any environment, be it an office or a professional production facility.

Available with 4 or 8 drives; the CopyDisc 4 and CopyDisc 8 (fitted with the very latest industry-leading DVD±R drives) offer high-speed duplication of up to 220 discs at a time. Approximately 140 80min, 702Mb CDs or 60 4.7Gb DVDs** can be copied each hour with the CopyDisc 8 standalone model – suitable for even the most demanding of duplicating professionals.

All CopyDisc Platinum duplicators are easy to use, with all command operations being entered via the control panel. Blank discs are picked from the input spindle by the precision robotic arm and placed into the waiting drives. The CopyDisc Platinum duplicator will then not only automatically detect the type of CD/DVD master (CD ROM, CD-XA, DVD etc.) without any user intervention, but will also provide “frame accurate” Data and Audio including UPC, ISRC and audio indexes. In addition, the compare master and copy modules allow both CD/DVD images to be verified for complete data integrity assurance. The internal hard disc drive offers quick and easy retrieval of stored images.

Print Option

Users of the CopyDisc 4 model are given maximum versatility and can choose from a range of leading CD and DVD print technologies to complete their disc publishing operation. Print options include the OptiPrinter Pro inkjet printer, the TEAC P-55 thermal re-transfer printer and the Prism thermal printer making it incredibly simple to copy and print quality discs at the touch of a button.

Networking

If you want to run your CopyDisc Platinum directly from your PC then the optional DiscPilot networking software allows you to share the CopyDisc Platinum with multiple users.

*CopyDisc 4 only

Warranty

12 months back to base, all parts and labour included.
Extended warranties also available.

Options

DiscPilot Networking Software (compatible with Windows XP)
